

Join the **Improving** **Black Health Outcomes** **BioResource**

In Black communities, more research is needed to improve our understanding of health conditions and to develop better treatments.

bit.ly/IBHO1

Our research is open to anyone who...

- **LIVES IN ENGLAND**
- **HAS A SICKLE CELL DIAGNOSIS**

WHAT IS THE IBHO BIORESOURCE?

Our project focuses on **health conditions** affecting Black communities.

Our aims:

- Explore **genetic** and **environmental risk factors** for **common** and **rare** health conditions affecting **Black communities**
- Create a **re-contactable group** of volunteers willing to participate in future relevant **health research**
- **Recruit >10,000** people from Black communities to enable research that **improves health outcomes** for **Black communities**

What do you need to do?

- Complete a questionnaire
- Provide a blood and/or saliva sample
- Be open to take part in future research

If you have any questions please contact us via email.
We are always interested in hearing your feedback.
